

## **Risk Disclaimer**

Aktien network disclaims any liability for risks arising from customers' investment activities or asset management decisions based on provided information or market analysis. All content shared is for informational purposes only and should not be interpreted as financial advice or specific recommendations. Customers are strongly encouraged to seek guidance from personal financial advisors before making any investment or trading decisions.

Due to the inherent risks involved, individuals should only proceed if they fully understand the agreements and relationships they are entering and can accurately assess their risk exposure. Trading financial instruments such as futures, options, forex, CFDs, stocks, and cryptocurrencies may not be suitable for all investors. It is essential to consider whether such activities align with one's financial experience, goals, and risk tolerance.

Past performance is not indicative of future results. The following are specific risks associated with financial trading:

**Electronic Trading Risks:** Before engaging in electronic trading, individuals should understand the rules of the relevant exchange and their broker's terms. Online trading carries risks related to system responsiveness, market conditions, and other factors beyond one's control. Understanding these risks is crucial before participating in electronic transactions.

**Stock Market Risks:** Opinions, news, research, and analyses provided by Aktien network are general comments and should not be taken as investment advice. Aktien network is not responsible for any losses, including lost profits, resulting from reliance on such information. Investors must recognize that all investments carry significant financial risks, and past performance does not guarantee future results. It is essential to assess personal financial situations and consult a financial advisor when uncertain.

**Futures Trading Risks:** Futures trading involves significant risk due to the leverage effect of low initial margins compared to contract value. Small price movements can have a large impact on deposited funds, potentially leading to the loss of the initial margin and additional funds. If the market moves against an individual's position, additional capital may be required, possibly resulting in negative balances.

**Forex Trading Risks:** Trading foreign exchange on margin carries a high level of risk and may not be suitable for all investors. Leverage can magnify both gains and losses. Before trading forex, individuals should carefully evaluate their financial resources, experience, and risk tolerance. The possibility of losing part or all of the initial investment exists, and consulting a financial professional is advisable.

**Options Trading Risks:** Trading options involves substantial risk and can lead to the total loss of the invested amount within a short period. In some cases, losses may exceed the initial investment, requiring additional funds. Before engaging in options trading, investors should consider their financial situation and investment goals, acknowledging the potential for significant losses.

**Staking Risks:** Staking cryptocurrencies carries risks due to market volatility, regulatory changes, and technological vulnerabilities. Staked assets may be exposed to hacking or theft. Conducting thorough research, assessing risk tolerance, and seeking professional advice before participating in staking is recommended.

**Mining Risks:** Cryptocurrency mining is highly speculative and involves significant risks. Cryptocurrency values can fluctuate drastically, leading to financial losses. Mining equipment may

## Aktien network

become obsolete, and operational costs can erode profitability. Regulatory changes or technological disruptions could impact mining operations. Proper research is necessary before pursuing mining activities.

Given these risks, there are no guarantees of success or profitability in any investment. By using this website, individuals acknowledge that Aktien network bears no responsibility for any damages resulting from investment decisions. It is essential to review Aktien network's General Terms and Conditions.

None of the provided information constitutes an offer to trade financial instruments. Trading in stocks, currencies, CFDs, forex, spread betting, futures, or cryptocurrencies carries substantial risk and may not be suitable for all investors. Past performance does not ensure future outcomes. Investors are advised to evaluate their financial circumstances and seek professional guidance before trading, considering the potential for substantial losses.

Leverage can result in both significant gains and losses. Any tutorials and examples shared are based on hypothetical scenarios and may not reflect real trading outcomes. Results may vary due to market liquidity and other influencing factors.

All information provided is intended for informational and educational purposes only and should not replace professional financial advice. Aktien network assumes no responsibility for financial losses incurred. Trading can be addictive, and individuals at risk should seek professional support.

Testimonials featured on this website reflect personal experiences and are not necessarily indicative of future results or typical outcomes. It remains the responsibility of individuals to consult qualified financial professionals before making investment decisions.
